A newsletter from the leader in Veterinary Software Technology

V-Tech Platinum™ due for release December 06

Special points of interest:

- V-Tech launches Platinum
- Self Check in
- Life Learn Client Education
- Vetgate USA
- AMS at Veterinary Conferences
- Label special

Advance Micro Systems is pleased to announce a release date for our latest version of V-Tech, V-Tech Platinum™. V-Tech Platinum™ is our deep commitment to giving you the absolute latest technology, most comprehensive feature rich veterinary software on the market today. As always, conversions to the Platinum product are no charge and you get all the greatest modules included. If you would like to see the new version call AMS at (800) 858-0433 for a special log in to our web site for a sneak preview. If you would like to be a beta test site please let us know.

AMS Pet ID Cards from VetgateUSA are a huge hit. Call today to get signed up. (877) 431 4978

V-Tech Platinum allows clients to self check in from the lobby with our Pet ID card.

With our new touch screen check in monitor located in the lobby of your hospital, clients can now check themselves in. This feature allows for receptionist to increase customer service identifying patients immediately while V-Tech Platinum processes the information.
